SAVED VALUABLE TIME AND LABOR

For years, we have attended rental shows and have had our eye on the tent washing machines from CCC Washers. A few years ago, we finally decided it was time to make a purchase. This machine is **phenomenal**. We have saved not only valuable time but also labour costs, not to mention the reviews Encore Tents has received on having such beautiful and clean tents. CCC Washers makes doing business with their company an **easy decision**.

NO COMPARISON TO WASHING BY HAND

Having purchased a CCC BK2000 tent washer 6 years ago, I thought I would take the time to say how **wonderful** the tent washer is. Prior to purchasing the BK2000, we washed our tents and sidewalls with floor scrubbers, mops, and brooms. After washing our first tent, there was **no comparison** to our past results.
